Lesson 1

My Relationship With Physical Activity

Lesson 1 – Activity 3

In about 200 words, describe below your relationship with physical activity based on the following three aspects: 1. Regular and sufficient physical activity; 2. Available time; 3. Inactivity and its obstacles.

Write your text here:

1. Regular and sufficient physical activity

When I reflect on my week, I realize I stay active through both intentional exercise and d tasks. I don't always frame what I do as "working out," but many activities keep me movi and contribute to my physical well-being. I regularly walk, sometimes for long stretches also incorporate weight training a few times a week. These sessions can last anywhere fı minutes to over an hour, depending on the day. Altogether, I would estimate I get betwe hours of moderate-to-high intensity activity weekly, which meets Health Canada's recommendations for adults.

Available time

I have a fair amount of flexibility in my schedule. After my academic and professional responsibilities, I still manage to find free time during evenings and weekends. Some of time is used to relax, but I also enjoy investing it into physical activity or being outdoors balance makes it easier to remain consistent without feeling pressured.

Inactivity and its obstacles

I do have sedentary periods. mainly when working on assignments, coding projects, or attending classes, but I try to break them up with short walks or stretches. Overall, I wou describe myself as very sedentary, since I make a conscious effort to move regularly.

Lesson 2

Physical Tests

Lesson 2 – Activity 1

Click "Category" to access the classification tables.

My Cardiorespiratory Fitness

Test	Results	Category
Three-Minute Step Test	87	Average

My Muscular Fitness

Test	Results	Category
Abdominal crunches	49 repetitions	Average
Push-ups	7 repetitions	Very poor
Wall sit	78 seconds	Poor

My Flexibility

Test	Results		Category
Sit-and-Reach	Fingertips reach the wall.		Average
Hands behind the back	Right shoulder Tips of middle fingers t	Left shoulder Fingers do not touch at	Poor

My Body Composition

Test	Results	Category
BMI	31.8	Very poor
Waist circumference	104 cm	Poor

Summary of My Physical Abilities

Lesson 2 – Activity 1

Summary of My Cardiorespiratory Fitness

Write your answer here:
I have average cardiovascular health, I recently lost 50lbs (300 > 250lbs) so this makes
cardio was a large focus.

Summary of My Muscular Fitness

Write your answer here:
Bodyweight-wise, my muscular fitness is underwhelming, I am fairly active in the gym, b
isn't shown due to my large size.

Summary of My Flexibility

Write your answer here:
As a hockey defensemen, flexibility exercises are added to our training regiment. Regar
is still active.

Summary of My Body Composition

Write your answer here:
Yeah, my body composition is poor. Getting there, down from 300lbs but still a long way

My Priorities for My Program

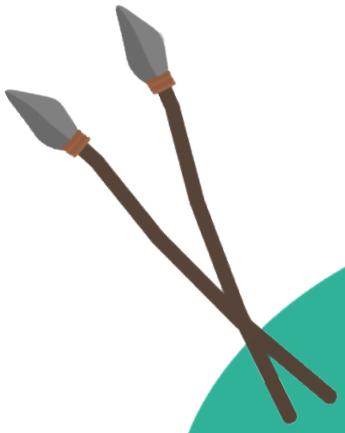
Lesson 2 – Activity 3

Establish six to nine priorities for your program. You can prioritize respecting your abilities, your needs, or your motivation factors. Then explain your choice of priorities in a few words.

	Priority	Explanation
1	Write your answer here: Improve my cardiovascular fitness.	Write your answer here: Heart disease runs in my family, my card has always been faulty.
2	Write your answer here: Improve my muscular strength	Write your answer here: A personal goal for mine, science has shown it's good for fighting mental healt issues and is overall good for the body.
3	Write your answer here: Reduce my fat stores	Write your answer here: Unhealthy to have large fat stores, whic have.
4	Write your answer here: Increase my self-confidence	Write your answer here: Being a big guy my whole life, my whole personality often revolves around my weight, which has largely made me self-consious, it'd be nice to see the othe
5	Write your answer here: Improve my body image	Write your answer here: I've never been happy with what I see in mirror.

	Priority	Explanation
6	Write your answer here: Develop my skills	Write your answer here: I love hockey, plain and simple. I'd love to improve my skills.
7	Write your answer here: Give myself time alone	Write your answer here: I'm a social guy, tight with family and bus software developer. Working out is the ti I give myself away from all of that.
8	Write your answer here: Reduce my anxiety	Write your answer here: Working out inherently makes me less anxious.
9	Write your answer here: Increase my energy	Write your answer here: The times I've been consistently active h been the times I felt the most awake.

Lesson 3



My Program Objectives

Lesson 3 – Activity 2

Set one to three objectives for your paleoactive program. Explain how your objectives meet each of the SMART criteria.

- Specific: action-oriented objective that aligns with your priorities
- Measurable: objective that includes quantities or qualities that can be precisely measured
- Ambitious: objective represents a challenge that will require you to push yourself
- Realistic: objective is achievable and respects your limitations
- Time-bound: objective is limited to a specific time period

Objective 1:

Criterion	Explanation of chosen objective based on each SMART criterion
	Write your answer here: Specific: I will play hockey twice per week to improve my endurance an agility.
	Write your answer here: Measurable: Track number of games or practices (2 sessions/week).
	Write your answer here: Ambitious: Committing to regular games pushes me to maintain cardic while enjoying competition.
	Write your answer here: Realistic: Twice a week fits my schedule and current fitness level.
	Write your answer here: Time-bound: Maintain this for the next 8 weeks.

Objective 2:

Criterion	Explanation of chosen objective based on each SMART criterion
	Write your answer here: Specific: I will run 3 km without stopping.
	Write your answer here: Measurable: Increase distance weekly until reaching 3 km.
	Write your answer here: Ambitious: Running 3 km continuously is a challenge that requires stead progress
	Write your answer here: Realistic: Start with shorter intervals (1–2 km) and build endurance.
	Write your answer here: Time-bound: Achieve this goal within 6 weeks.

Objective 3:

Criterion	Explanation of chosen objective based on each SMART criterion
	Write your answer here: Specific: I will complete three full-body weight training sessions per week
	Write your answer here: Measurable: Track number of sessions and progression (weights lifted, se reps)
	Write your answer here: Ambitious: Three sessions a week ensures progressive overload and stre growth
	Write your answer here: Realistic: Sessions last 45-90 minutes, manageable with recovery time.
	Write your answer here: Time-bound: Keep this routine consistently for 10 weeks.

Lesson 4

My Heart Rate

Lesson 4 – Activity 2

Resting heart rate (RHR): 72 beats per minute (BPM)

Maximum heart rate (MHR): 185 beats per minute (BPM)

My Target Heart Rate Zones

Intensity	Percentage of heart rate	My heart rates
Light	57% to 64%	Write your answer here: 119
Moderate	65% to 75%	Write your answer here: 145
Vigorous	76% to 100%	Write your answer here: 185

Overall Planning of My Paleoactive Program

Lesson 4 – Activity 3

In the table below, describe a typical week of your paleoactive program. Include the names of the physical activities you plan to undertake throughout your program and classify them according to the objective you're pursuing. Note that you can choose the same objective multiple times. For each activity you've chosen, describe the number and type of sessions, their duration, the targeted intensity, and the related conditions for performing them.

Typical week of my paleoactive program
Objective: Improve my cardiorespiratory fitness **Activity or activities:** Write your answer here: Go on a run 1-2x a week
Objective: Improve my cardiorespiratory fitness **Activity or activities:** Write your answer here: Play hockey (game/practice) 2x a week
Objective: Improve my muscular fitness **Activity or activities:** Write your answer here: Strength training 3x a week.

Typical week of my paleoactive program
Objective: Improve my flexibility **Activity or activities:** Write your answer here: Yoga on weekends with my girlfriend.
Objective: Increase my volume of physical activity **Activity or activities:** Write your answer here: Consistently do something 6/7 days per week.

Detailed Planning for My Featured Activity

Lesson 4 – Activity 3

Now it's time to go into detail!

Use the first table to plan out how you will undertake your featured activity by considering the five training principles as well as the FIT principles. Write the name of your featured activity and related parameters and conditions. Provide the details of your plan for each session depending on the number of weeks of your paleoactive program.

Parameters of my featured activity Write your featured activity here: Running	
Week 1	Session 1: Write your answer here: Running: 1min run, 2min walk x 7
	Session 2: Write your answer here: Running: 1min run, 2min walk x 7
	Session 3: Write your answer here: Running: 1min run, 2min walk x 7
	Session 4: Write your answer here: Running: 1min run, 2min walk x 7
Week 2	Session 1: Write your answer here: Running: 2min run, 2min walk x 6
	Session 2: Write your answer here: Running: 2min run, 2min walk x 6
	Session 3: Write your answer here: Running: 2min run, 2min walk x 6
	Session 4: Write your answer here: Running: 2min run, 2min walk x 6

Parameters of my featured activity Write your featured activity here: Running	
Week 3	Session 1: Write your answer here: Running: 3min run, 2min walk x 5
	Session 2: Write your answer here: Running: 3min run, 2min walk x 5
	Session 3: Write your answer here: Running: 3min run, 2min walk x 5
	Session 4: Write your answer here: Running: 3min run, 2min walk x 5
Week 4	Session 1: Write your answer here: Run 4 min, walk 1 min × 5.
	Session 2: Write your answer here: Run 4 min, walk 1 min × 5.
	Session 3: Write your answer here: Run 4 min, walk 1 min × 5.
	Session 4: Write your answer here: Run 4 min, walk 1 min × 5.
Week 5	Session 1: Write your answer here: Run 5 min, walk 1 min × 5.
	Session 2: Write your answer here: Run 5 min, walk 1 min × 5.
	Session 3: Write your answer here: Run 5 min, walk 1 min × 5.
	Session 4: Write your answer here: Run 5 min, walk 1 min × 5.

Parameters of my featured activity Write your featured activity here: Running	
Week 6	Session 1: Write your answer here: Run 6 min, walk 1 min × 4 + cooldown jog.
	Session 2: Write your answer here: Run 6 min, walk 1 min × 4 + cooldown jog.
	Session 3: Write your answer here: Run 6 min, walk 1 min × 4 + cooldown jog.
	Session 4: Write your answer here: Run 6 min, walk 1 min × 4 + cooldown jog.
Week 7	Session 1: Write your answer here: Run 8 min, walk 1 min × 3, finish with 5 min run.
	Session 2: Write your answer here: Run 8 min, walk 1 min × 3, finish with 5 min run.
	Session 3: Write your answer here: Run 8 min, walk 1 min × 3, finish with 5 min run.
	Session 4: Write your answer here: Run 8 min, walk 1 min × 3, finish with 5 min run.
Week 8	Session 1: Write your answer here: Run 10 min, walk 1 min × 2, finish with 8 min run.
	Session 2: Write your answer here: Run 10 min, walk 1 min × 2, finish with 8 min run.
	Session 3: Write your answer here: Run 10 min, walk 1 min × 2, finish with 8 min run.
	Session 4: Write your answer here: Run 10 min, walk 1 min × 2, finish with 8 min run.

Parameters of my featured activity Write your featured activity here:	
Week 9	Session 1: Write your answer here: Run 12 min, walk 1 min × 2, finish with 10 min run.
	Session 2: Write your answer here: Run 12 min, walk 1 min × 2, finish with 10 min run.
	Session 3: Write your answer here: Run 12 min, walk 1 min × 2, finish with 10 min run.
	Session 4: Write your answer here: Run 12 min, walk 1 min × 2, finish with 10 min run.
Week 10	Session 1: Write your answer here: Run 15 min, walk 1 min, run 12 min.
	Session 2: Write your answer here: Run 15 min, walk 1 min, run 12 min.
	Session 3: Write your answer here: Run 15 min, walk 1 min, run 12 min.
	Session 4: Write your answer here: Run 15 min, walk 1 min, run 12 min.
Week 11	Session 1: Write your answer here: Continuous run: 2.5 km at steady pace.
	Session 2: Write your answer here: Continuous run: 2.5 km at steady pace.
	Session 3: Write your answer here: Continuous run: 2.5 km at steady pace.
	Session 4: Write your answer here: Continuous run: 2.5 km at steady pace.

Parameters of my featured activity Write your featured activity here:	
Week 12	Session 1: Write your answer here: Continuous run: 3 km without stopping.
	Session 2: Write your answer here: Continuous run: 3 km without stopping.
	Session 3: Write your answer here: Continuous run: 3 km without stopping.
	Session 4: Write your answer here: Continuous run: 3 km without stopping.

Conditions of my featured activity Write your featured activity here:	
Where will you do your physical activity?	Write your answer here: Outdoors, or on a treadmill
When will you do it?	Write your answer here: Before or after work
Whom will you do it with?	Write your answer here: Alone, or with my girlfriend.
How will you prove that you've done it?	Write your answer here: Strava.

Appendix

Classification Tables

Cooper 12-Minute Walk-Run

	Category	Age 19 and under	Age 20-29	Age 30-39	Age 40-49	Age 50-59
Male	Superior	>3,000	>2,800	>2,700	>2,600	>2,500
